

Medical Consulting Group

Specialty groups with special know-how.

While we serve clients in a wide variety of industries, Elliott Davis delivers broader and deeper resources through groups that focus on specific industries. We leverage our information, people and experience to deliver accounting and business advisory services in ways only a specialized team can. These groups are led by shareholders who not only provide vision, but are involved in your day-to-day activities, challenges and solutions.

ElliottDavis
Accountants and Business Advisors

Strength in numbers.

Whether it's a one doctor start up practice, or a large, long-established health care institution, Elliott Davis' Medical Consulting Group delivers business solutions needed to meet the demands of a complex and fast-changing medical industry.

Our team has the experience and expertise to help physician practices and hospitals improve how they manage countless financial and operational challenges they face every day - so physicians and support staff can focus on patient care.

Our medical consulting services can help:

- *Assist physicians in making informed decisions about practice operations*
- *Streamline operational workflows*
- *Reduce operational expenses*
- *Improve revenue cycles*
- *Enhance patient care and satisfaction*

From analyzing needs to developing and implementation solutions, our services include:

Financial Management
